Blue Bells Stands for Collaborative Multilateralism towards a Sustainable World Order

MESSAGE FROM THE DIRECTOR, BLUE BELLS GROUP OF SCHOOL

Dear Valued Readers ,

**To quote the words of Mr. Dinesh Paliwal,
“Collaboration is the key part of the success of any
organization, executed through a clearly defined vision
and mission.”**

**DR.SAROJ SUMAN GULATI,DIRECTOR
BLUE BELLS GROUP OF SCHOOLS**

With the adoption of the 2030 Agenda for Sustainable Development and the 17 Sustainable Development Goals (SDGs) by the United Nations in 2015, it no doubt marked a watershed moment in the global journey towards a more equitable and prosperous future. It was collectively and conscientiously accepted that achieving these ambitious objectives requires a coordinated and collaborative effort from all stakeholders, including governments, civil society organizations, the private sector, and individuals.

Furthermore, multilateral cooperation. can enhance the accountability and effectiveness of sustainable development efforts, as countries can jointly monitor and review progress towards the SDGs. The need for all stakeholders is to realize that in the face of the increasing global challenges, multilateral cooperation has become a crucial tool for addressing sustainable development issues like climate change, poverty, inequality and environmental degradation. By providing technical assistance, capacity building programmes and financial assistance developed countries can help to empower developing countries to address their specific challenges and achieve their sustainable development goals.

I wish the venture the best of success. My sincerest blessings to all my eco-warriors.
