

Mrs. Saroj Suman Gulati Founder Director / Principal BLUE BELLS MODEL SCHOOL

Dhulan

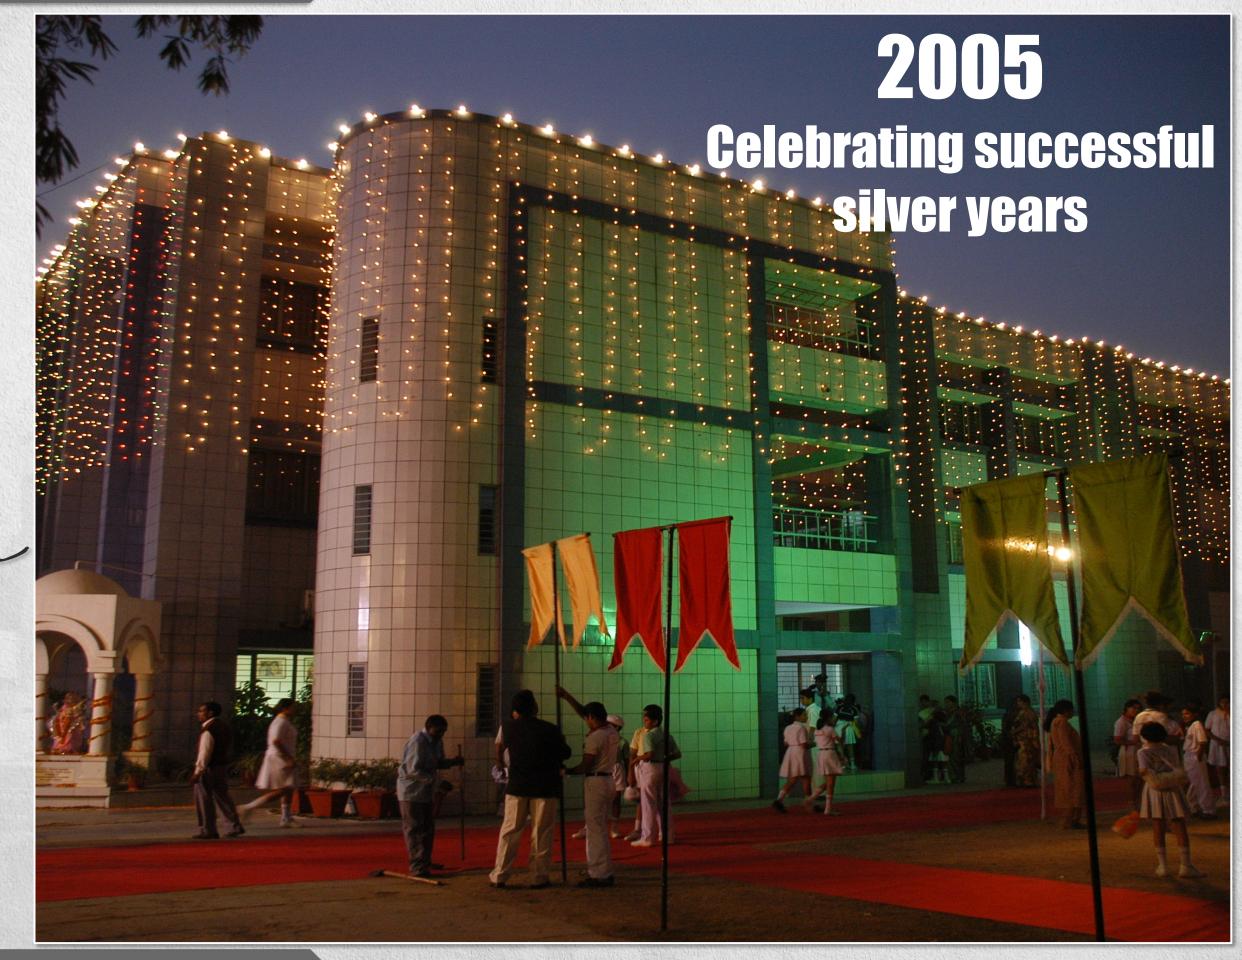

" Learning is creation, not consumption. Knowledge is not something a learner absorbs, but something a learner creates." Such became the rock-foundation of the teaching- learning process at Blue Bells Model School as it stepped into its Silver Jubilee year. As the institution grew, research-based learning and innovation became the hallmarks of the teaching pedagogy. Project based and experiential learning through hands-on-activities were adopted as learning strategies. Pursuing the mission with great efficacy the school updated the IT Labs, IT-enabled Maths Lab and Language Lab was introduced so that students are acquainted with the nuances of their learning progression and forge ahead with a strong concept-based learning.

These phenomenal changes empowered the students by polishing their logical and IT skills. The Blue Bellians made a mark for themselves by competing in varied National and International Olympiads and bagged prestigious positions. The merit graph started upscaling in the Board Examinations by giving record results in town and churning out Region and City Toppers.
